This application is required for institutions desiring ACVR accreditation of a new residency training program and for institutions requesting re-accreditation of an existing program.

Before beginning the application process, all applicants should review the most recent version of the ACVR Residency Program Essential Training Standards and Requirements (RPE) document (accessed from the Essentials Homepage) in detail. Use the RPE as a reference when completing the application form, as the contents you provide herein will be evaluated by the Residency Standards and Evaluation Committee (RSEC) against the published RPE standards. This application form follows the headings of the RPE. All terms used in this application have same definitions as those in the RPE, and no information provided in the application form itself will supersede that published in the RPE.

During the application review process, the Chair or Assistant Chair of the RSEC may contact the applicant for additional information or clarification.

*Note: If you wish to save your submission and complete it later, click the save button located at the bottom of the pages. You will be emailed a link to complete your form at a later date.

ACVR Residency Training Program Application

Program Summary

The Residency Director of the program is expected to be the primary applicant and contact person for this application. The Residency Director must be located at the primary training institution.

Institution Name: Purdue University

Residency Program Director Name: Hock Gan Heng

Residency Program Director Email: hheng@purdue.edu

Program Type

What type of residency program is being requested? Traditional Residency Program

If approved, what is the proposed start date of this residency program? Thursday, July 1, 2021

Objectives

Succinctly state the objectives of the training program.

1. To train the resident in basics of radiobiology, radiation physics, radiation protection, radiation dosimetry and radiation safety.

2. To help the resident in developing clinical skills in diagnostic imaging which include: diagnostic radiology, ultrasound, computed tomography, magnetic resonance imaging and nuclear scintigraphy.

3. To train the resident in scientific research and literature evaluation.
Training Period

What is the total length of the training program? 48

What is the anticipated length of supervised clinical training a resident will experience during this program? 43

Will the resident(s) in this program be eligible to take the ACVR Preliminary Exam in September of their third year? Yes

What are the responsibilities of the resident(s) during non-clinical portions of the program?
1. Resident research project
2. Requirements for completion of the Master’s program at Purdue which includes presentations, attending and teaching classes and technical instruction
3. Vacation
4. Preparation for ACVR Certification Examination

ACVR Residency Training Program Application

Direction and Supervision
When calculating time commitment in this section, you may consider a 100% (full time) duty schedule to consist of 48 weeks per year with 8 hours per day or 40 hours per week.

Residency Director
Please review the Residency Director requirements and responsibilities in the ACVR Residency Program Essential Training Standards and Requirements (RPE) document. Note that the Residency Director will be required to provide at least 24 weeks of clinical duty per year in primary support of residents in this program and to meet all other qualifications of a Supervising Diplomate.

Is the applicant Residency Director for this program prepared to meet these requirements? Yes

What percentage of the Residency Director’s time is committed to clinical service at the primary training institution? 70

How many weeks per year will the Residency Director be on clinical service and teaching residents at the primary training institution? 35
ACVR Residency Training Program Application

Additional Training Diplomates

Please review the definitions and responsibilities of Supervising Diplomate and Supporting Diplomate in the RPE document. Note that Supervising Diplomates will be required to provide at least 10 weeks of clinical duty in primary support of residents in this program, and are expected to participate in all facets of residency training. Supporting Diplomates aid in residency training, but provide support that is limited, as by modality (e.g. only works in ultrasound), time commitment (e.g. clinical duty < 10 weeks per year), or other constraints that prevent them from qualifying as a Supervising Diplomate.

Provide a copy of affiliation agreements with any diplomates that are located at an external institution (see Affiliation Agreement item at the end of this section).

Excluding the Residency Director, please list all training diplomates who will act as Supervising Diplomates of this residency program. Indicate the approximate number of hours per year each supervisor will be scheduled on clinical duty with primary support of residents and, if applicable, any specific areas of instructional responsibility (e.g. trains mostly in small animal, trains mostly in MRI, etc). If a ‘Supervising Diplomate’ position will be comprised of multiple radiologists, please list the cohort as a single entity or institution for this question (e.g. “teleradiologists” or private institution name).

In addition to ACVR/ECVDI Diplomates, the program must arrange for the resident(s) to have direct access to specialists in other areas. Please identify one member in each of the specialty colleges listed below that has agreed to support this program through clinical activity that allows regular interactions between the specialist and the diagnostic imaging residents (e.g. discussion of diagnostic work up, imaging findings, or patient outcomes, and/or participation in interdisciplinary rounds, etc). Indicate whether the specialist is located on-site at the primary institution or at an external institution. Provide a copy of affiliation agreements with any non-ACVR/ECVDI diplomates that are located at an external institution (see Affiliation Agreement section at the end of this application).

Upon completion of this application, the below individuals will receive an email requesting acknowledgement of their support of your residency program.

ACVIM Member Name  Lynn Guptill
ACVIM Member Institution  Purdue University
ACVIM Member Email  guptillc@purdue.edu
ACVS Member Name  Mark Rochat
ACVS Member Institution  Purdue University
ACVS Member Email mrochat@purdue.edu
ACVP Member Name Margaret Miller
ACVP Member Institution Purdue University
ACVP Member Email pegmiller@purdue.edu

ACVR Residency Training Program Application

**Resident:Supervising Diplomate Ratio**

The number of residents in the program cannot exceed twice the number of Supervising Diplomates on-site. Remote Supervising Diplomates will not count when calculating the maximum residents allowed in a given program.

What is the maximum number of imaging interns you will have enrolled in this training program at any given time?

5

ACVR Residency Training Program Application

**Facilities**

Review the Facility Requirements listed in the RPE document. Note also that residents should have opportunities to be involved with image acquisition and protocol set-up.

Does this residency training program provide on-site access to modern equipment for the following modalities?

<table>
<thead>
<tr>
<th>Modality</th>
<th>Access</th>
</tr>
</thead>
<tbody>
<tr>
<td>Digital or Computed Radiography</td>
<td>Yes</td>
</tr>
<tr>
<td>Fluoroscopy</td>
<td>Yes</td>
</tr>
<tr>
<td>Ultrasound with Doppler Capability</td>
<td>Yes</td>
</tr>
<tr>
<td>MRI</td>
<td>Yes</td>
</tr>
<tr>
<td>Fan-beam CT</td>
<td>Yes</td>
</tr>
<tr>
<td>Nuclear scintigraphy</td>
<td>Yes</td>
</tr>
</tbody>
</table>

Briefly describe how this program meets the facility requirements, including the specific type of CT and MRI units available. Explain how your program will train residents in modalities for which equipment is not located on site, providing affiliation agreements if applicable. (see Affiliation Agreement item at the end of this section)

Purdue University meets all requirement.

ACVR Residency Training Program Application
Clinical Resources and Training Content

Review the clinical resource and training content requirements listed in the RPE document.

**What is the average annual caseload at the primary institution over the past 3 years?** This number will include all patient visits whether or not they contribute to the annual imaging caseload.

- **18000**

**What is the average annual imaging caseload at the primary institution over the past 3 years?** Each body region imaged for a given patient (e.g. thorax, abdomen, spine, etc) will count as a single study.

- **11650**

**What is the average annual imaging caseload at the primary institution over the past 3 years in the following categories?**

- **Small animal radiology** 7050
- **Large animal radiology** 800
- **Abdominal ultrasound** 2050
- **Non-abdominal ultrasound** 500
- **Computed tomography** 800
- **Magnetic Resonance Imaging** 400
- **Nuclear scintigraphy** 50

**Indicate the approximate species breakdown of the imaging caseload at the primary institution in the following categories:**

- Small animals (canine, feline): 82%
- Large animals (equine, bovine, porcine, etc.): 15%
- Avian, Exotic, and Wildlife animals: 3%

**Which of the following types of imaging cases will the resident(s) have direct, on-site exposure to at the primary institution during the residency program?**

- **Echocardiography** 
  - **Yes**
- **Large animal ultrasound**
  - **Yes**
Nonabdominal small animal ultrasound (i.e. cervical, musculoskeletal) Yes
Food/fiber animal imaging Yes
Exotics imaging Yes
Teleradiology/Referral imaging Yes

**ACVR Residency Training Program Application**

What percentage of the total imaging caseload at the primary institution results in a written imaging report being generated by either the residents or the training radiologist diplomates in this program? 100%

What percentage of the preliminary reports generated from the imaging caseload are initially produced by the resident(s) in this program? 98%

Does this institution concurrently support the training of diagnostic imaging interns? No

What percentage of resident-generated reports are reviewed by training diplomates prior to finalization of the report? 100%

What is the average turnaround time for resident-generated preliminary reports to be finalized by training diplomates? 10 hours

What percentage of all imaging reports (resident and diplomate generated) is finalized and available to requesting clinicians within 48 hours after the exam is submitted for radiologist consult? 100%

For each category below, calculate the approximate number of cases that a single resident will interpret at the primary institution with radiologist feedback during the course of the entire residency program. These numbers should be calculated using the annual imaging caseload adjusted to include only those with written reports generated by the residents. In general, this number should then be divided by the total number of residents in a program during a given year. If external rotations for the resident(s) are employed to increase the resident caseload in any given category, please be sure to upload affiliate agreements that include the expected number of reports...
that residents can expect to generate (with radiologist feedback) for cases in those categories.

<table>
<thead>
<tr>
<th>Service</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Small animal radiology</td>
<td>5520</td>
</tr>
<tr>
<td>Large animal radiology</td>
<td>630</td>
</tr>
<tr>
<td>Abdominal ultrasound</td>
<td>1610</td>
</tr>
<tr>
<td>Non-abdominal ultrasound</td>
<td>390</td>
</tr>
<tr>
<td>Computed tomography</td>
<td>630</td>
</tr>
<tr>
<td>Magnetic resonance Imaging</td>
<td>310</td>
</tr>
<tr>
<td>Nuclear scintigraphy</td>
<td>40</td>
</tr>
</tbody>
</table>

How many ultrasound exams will a single resident perform with radiologist supervision and feedback during the course of the entire program? Scans for which the resident writes a report but does not acquire images are excluded.

Do residents in this program have ample hands-on training and practice opportunities to become proficient in the performance of ultrasound guided fine needle aspirates and biopsies?

Please indicate whether this training program includes formal courses in any of the following topics:

- Radiobiology: No
- Nuclear Medicine: No
- Ultrasonography: No
- Computed Tomography: No
- Magnetic Resonance Imaging: No
- Other: No

Briefly describe the formal courses that are available for the resident(s) in this program by indicating the institution, course title, course number, and credit hours as well as any other relevant information. For any topics for which formal course work is not provided for the resident(s), please explain how educational objectives in these topics will be met.

Radiology, ultrasound, nuclear Medicine, CT and MRI Physics are covered in resident rounds through journal review and discussions. Residents also have the opportunity to attend Veterinary MRI and CT
Do residents have access to a majority of the written pathology reports that are generated from patients included in this imaging caseload?  

**Yes**

---

**ACVR Residency Training Program Application**

**Research Environment**

Review the Research Requirements listed in the RPE document.

Over the last five years, what is the average number of peer reviewed publications on which the training diplomates (Supervising and Supporting diplomates) of this program are included as authors? (total number of publications in last 5 years among all training diplomates divided by the number of training diplomates)

23

How many peer-reviewed publications are expected of a resident completing the program?

2

If this is an established program, what percentage of residents have made formal research presentations at the annual ACVR or equivalent national meeting?

100

Briefly describe if/how residents are encouraged to engage in investigative work and what mechanisms are in place for training diplomates to support this work.

It is a requirement for our residency program.

---

**Educational Environment**

Review the Educational Environment expectations listed in the RPE document.

Briefly describe the type and extent of teaching opportunities that are provided to the resident throughout the training program.

Conducting students rounds and also teach in formal class setting.

Briefly describe the nature and scope of the teaching file available to the resident(s) in this program and how it is maintained/updated.

We maintained the teaching in digital format, and update whenever we have interesting cases.

How many Known Case Conferences are conducted annually?

25
Describe how the resident(s) in this program will attain direct and consistent medical library access and/or how they will access research tools and medical literature including the suggested references listed in the ACVR Preliminary Examination study guide.

Physical and online university library.
Physical books in reading room.

ACVR Residency Training Program Application

Evaluation and Protection of Residents

Did all of your current residents adequately complete the last 6 months of training?

Yes

List the current members of the resident review committee.

All radiologists.
In addition to the radiologists, the resident will have at least one non-imaging faculty as their committee member.

Describe the internal mechanisms in place at your institution to protect the resident(s) if personal or organizational conflicts arise. Include the management hierarchy for residents and procedures by which residents would report workplace misconduct.

We have Residency training committee, and Graduate student committee of Department of Veterinary Sciences. The resident could also sort help from any of these committee.

ACVR Residency Training Program Application

Program Schedule
Upload a schedule for your residents that outlines their clinical and non-clinical work over the course of the residency program. This may be a master schedule or duty roster for your entire radiology section, if desired. If available, an example weekly or monthly rounds schedule can also be included.
Program Schedule

- Calender 2020.xlsx
- Schedule 2017 and 2018.xlsx
- Schedule 2019.xlsx

Affiliation Agreements
Upload digital copies of any affiliation agreements that have not been included elsewhere in this document. Refer to the RPE document for an explanation of what information should be included in such agreements.
